Enclosed Composter

Perennials, Shrubs, and Trees

Franklin Soil and Water Conservation District
Creating Conservation Solutions for Over 60 Years

CITY OF GAHANNA

There are 65 Rebates remaining for Gahanna Residents through October 31st, 2015

Plant native in the fall and spring, a successful garden they will bring!

- Did you know that Fall is a great time to install a rain garden or plant new trees, shrubs and perennials?

Don't clutter your street gutter, make the most out of compost!

- Composting is a year-round activity, even in the cold winter months. Start your compost pile this year to have rich organic compost to use for your garden next year!

Buy a rain barrel this fall & be ready for spring rainfall!

- While we recommend taking rain barrels down in the winter to prevent ice from cracking them, be ready for Spring 2016 and store your rain barrel over winter.
